Introduction and Acknowledgements

Children are our future. They deserve the best and therefore they remain the top priority of the Queens Library (QL). No child should be left behind, including one born to an immigrant family. It is the mission of the New Americans Program (NAP) to provide a unique mix of interrelated library programs, services and collections to Queens' diverse and constantly changing non-English speaking residents, including parents and their children. With the data provided by the New York City Department of Health and Mental Hygiene, NAP has been able to compile a profile of live births to foreign-born mothers in Queens in 2006, by mother's country of origin and ZIP code of residence. Getting an accurate idea of our potential customers' ethnic background and concentration will assist QL in designing programs and services for them, as well as for their parents.

This is the third report of this kind. The first report, which was very useful in planning parenting and toddler programs, was published in 2001 based on 1997 birth data. Since then, there have been changes in the confidentiality policy of the NYC Department of Health and Mental Hygiene regarding disseminating data to the public. As a result, when the number of live births to mothers of a particular country of origin in a particular zip code is less than 3, an "*" will appear.

We would like to give special thanks to the Bureau of Vital Statistics/Vital Records of the New York City Department of Health and Mental Hygiene, and especially to Dr. Steven Schwartz, Director, Dr. Wenhui Li, and Mr. Joseph Kennedy. Without their generous support, prompt and customized service, we would not have had the data to compile this report. Finally, we recognize the many customers who use and show their support for the library's programs and services.

Chart 1

Births to Foreign-born Mothers vs. U.S.-born Mothers in Queens, 2006 (By ZIP Code)

Chart 1 presents data on the total number of births to foreign-born and U.S.-born mothers by mother's ZIP code of residence. There were a total of 19,745 babies born to foreign-born mothers, and 7,743 to U.S.-born mothers (including Puerto Rico). In other words, 7 out of 10 babies born in Queens in 2006 were born to foreign-born mothers, with the main concentrations in ZIP codes 11368 (Corona) and 11373 (Elmhurst).

Chart 1: Births to Foreign-born Mothers vs. U.S.-born Mothers in Queens, 2006
(By ZIP Code)

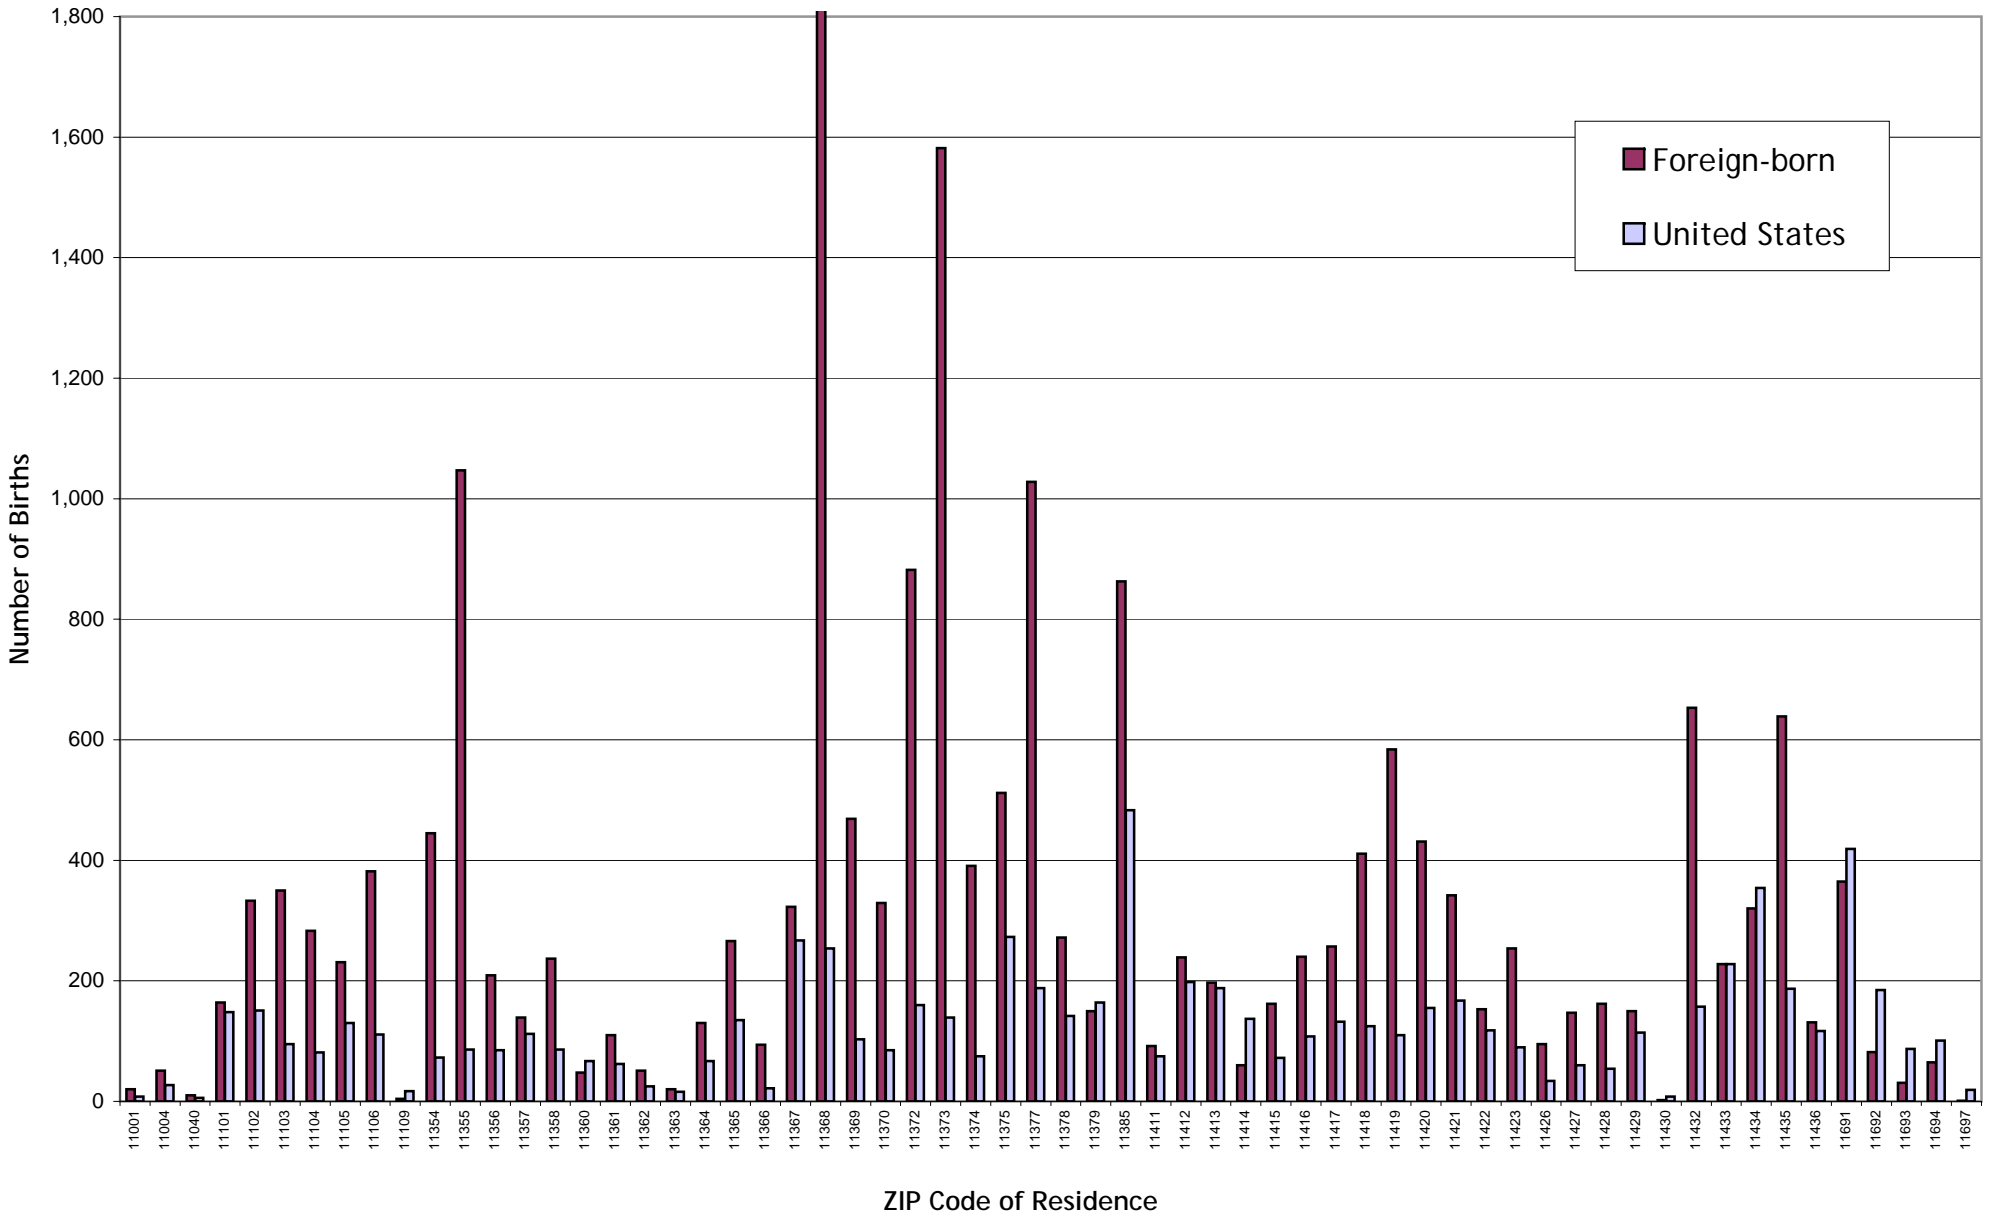

Table 3

Total Number of Births to Foreign-born Mothers in Queens, 2006

Table 3 presents data on the total number of births to foreign-born mothers in Queens in 2006. Data is arranged by QL Service Area, in descending order from the greatest number of births to the smallest. Names in the neighborhood column are those used by the New York City Department of City Planning. There are a few overlaps in QL service areas because there may be more than one community library with the same ZIP code. For instance, Corona, Langston Hughes and Lefrak City all belong to 11368. In the case of Kew Gardens (11415), for example, there is no community library located in that particular ZIP code. Therefore, information obtained from the Community Library Services Department of QL regarding customers using a particular community library determined the assignment of this ZIP code to Richmond Hill.

Note: Mothers who did not specify the ZIP code of residence were not listed as a separate entry, but are counted in the Queens Total.

Map 1

Top Source Country of Origin of Mothers Giving Birth in Queens, 2006 (By ZIP Code)

Map 1 presents data on the top source country of origin of mothers giving birth in each ZIP code in Queens in 2006. The top source country of origin and the number of live births are listed for each ZIP code. In 11414, mothers from Colombia and Pakistan gave birth to 7 babies each and therefore both countries are listed.

Table 4

Ranking of Births to Foreign-born Mothers in Queens, 2006

Table 4 lists the top 30 countries of origin of mothers giving birth in Queens in 2006. Births to mothers from these top 30 countries accounted for 86.2% of all births to foreign-born mothers. The figures in the “Percent” column reflect only the percentage of births born to foreign-born mothers, not of the total number of live births.

Table 4: Ranking of Births to Foreign-Born Mothers in Queens, 2006

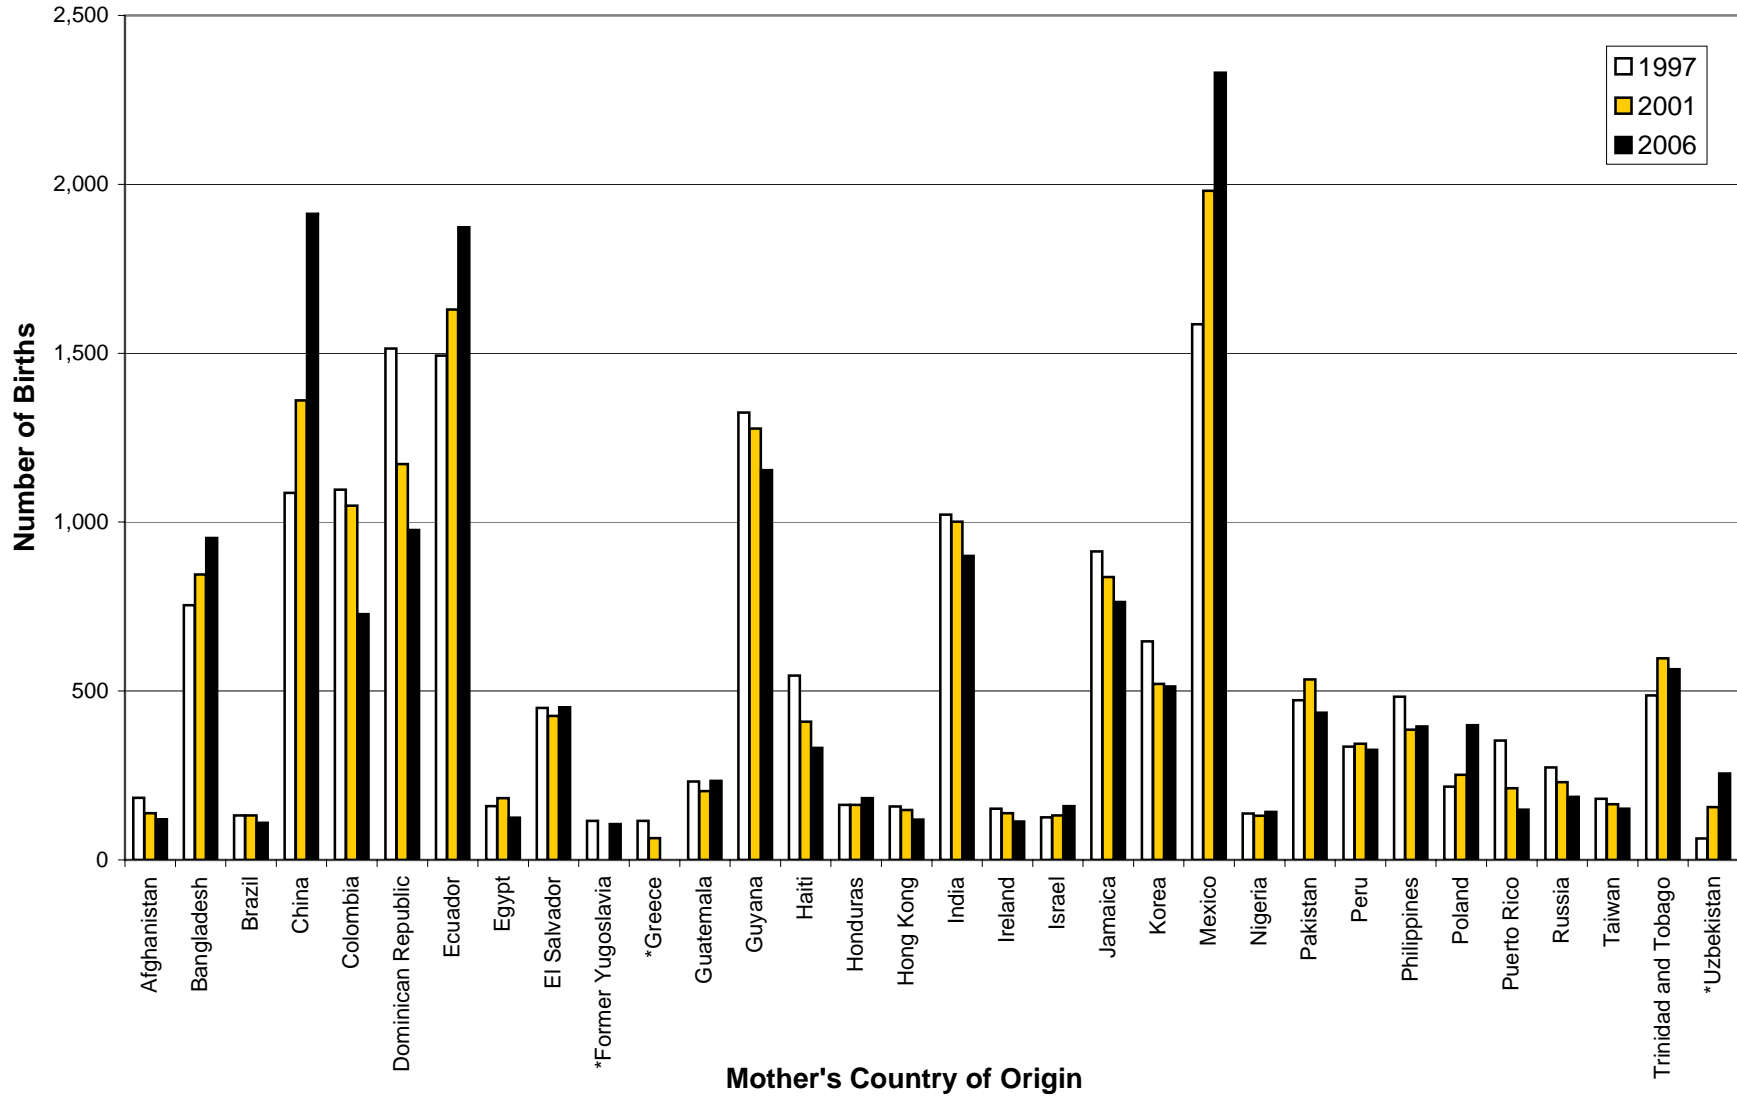

| RANKING | COUNTRY OF BIRTH | LIVE BIRTHS | PERCENT | RANKING | COUNTRY OF BIRTH | LIVE BIRTHS | PERCENT |

Chart 2

Ranking of Births to Foreign-born Mothers in Queens, 1997, 2001 and 2006

Chart 2 gives a comparison between the top 30 countries of origin of mothers giving birth in Queens recorded in 1997, 2001 and 2006. Please note that Uzbekistan and Greece were not ranked among the top 30 countries in 1997 and 2001 respectively. The Former Yugoslavia was ranked among the top 30 countries in 2006 only and data for 2001 was not available. Due to cultural and linguistic distinctions, Puerto Rico is listed in this chart even though it is part of the U.S.

Chart 2: Ranking of Births to Foreign-born Mothers in Queens, 1997, 2001 and 2006

* NOTE: Uzbekistan and Greece were not ranked among the top 30 countries in 1997 and 2001 respectively. Data for Greece for 2006 was not available. The Former Yugoslavia was ranked among the top 30 countries in 2006 only and data for 2001 was not available.

Table 5

Top 30 Countries of Origin of Mothers Giving Birth, 2006 (By ZIP Code)

Table 5 presents data on the top 30 countries of origin of foreign-born mothers giving birth in Queens in 2006. It is arranged by ZIP code since the original data was drawn from ZIP code of residence reported by the mothers themselves. Births to mothers who did not specify their ZIP code of residence are counted in the Queens Total, but not the total number for each country. Due to confidentiality, small cells with numbers less than 3 were marked with an “*”. They are counted both in the Queens Total and the country total. Names in the neighborhood column are those used by the New York City Department of City Planning. There are a few overlaps in QL service areas because there may be more than one community library with the same ZIP code. For instance, Corona, Langston Hughes and Lefrak City all belong to 11368. In the case of Kew Gardens (11415), for example, there is no community library located in that particular ZIP code. Therefore, information obtained from the Community Library Services Department of QL regarding customers using a particular community library determined the assignment of this ZIP code to Richmond Hill.

Table 6

Births to Hispanic Mothers, 2006

Table 6 presents the total number of live births in Queens to mothers from Spanish speaking countries in 2006, which accounts for 38.7% of the total live births to foreign-born mothers. There are a total of 19 countries, namely Argentina, Bolivia, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, El Salvador, Guatemala, Honduras, Mexico, Panama, Paraguay, Peru, Puerto Rico, Spain, Uruguay and Venezuela. The format of this data presentation is the same as for Table 3, arranged by QL service area in descending order of the total number of live births, with a cumulated total. The original data was provided for each individual country, with small cells with numbers less than 3 marked with an “*” because of confidentiality. The Queens Total includes the number of live births that were marked with “*”, and those born to foreign-born mothers who did not specify the ZIP code of residence as reported to the New York City Department of Health and Mental Hygiene.

Table 7

Births to Chinese Mothers, 2006

Table 7 presents the total number of live births in Queens to mothers from China, Hong Kong and Taiwan in 2006. The format of this data presentation is the same as for Table 3, arranged by QL service area in descending order of the total number of live births, with a cumulated total. The original data was provided for each individual country, with small cells with numbers less than 3 marked with an “*” because of confidentiality. The Queens Total includes the number of live births that were marked with “*”, and those born to foreign-born mothers who did not specify the ZIP code of residence as reported to the New York City Department of Health and Mental Hygiene.

Table 8

Alphabetical Listing of the Top 30 Countries of Origin of Mothers Giving Birth in Queens, 2006

Table 8 presents data arranged alphabetically by mother's country of origin from the top 30 source countries of origin of mothers giving birth in Queens in 2006. The data is presented in descending order for each country. The format of this data presentation is the same as for Table 3, Table 6 and Table 7, arranged by QL service area. Due to confidentiality, small cells with numbers less than 3 were marked with an "*". These are listed alphabetically by QL service area. The Queens Total includes the number of live births that were marked with an "*". Because of its cultural and linguistic distinctions, Puerto Rico is included in this table in addition to the top 30 foreign countries.
